

SI: Good evening, and welcome to tonight's event. Please fill out the top of the page titled "Score Sheet". This is a Question and Answer (Q&A) type car rallye, so please take your time and read everything given to you carefully. There will be a rallye school at 7:00 p.m.; if you would like to find out more on how to run this event, and we usually give one or two gimmicks away so attending is worth your time. There are no gimmicks whatsoever on the above paragraph. END SI.

DEFINITIONS (any word not defined takes on its dictionary definition)

After: Beyond the indicated landmark.

At: As close to the indicated sign or landmark as possible.

Encounter: Drive upon.

INT: An intersection where exactly two differently named roadway names are posted.

Intersection: A meeting of roadways where you may proceed in more than one direction excluding a U.

L: A turn to the left.

Number: One or more digits, set off by spaces.

Opp: An opportunity to turn.

ORI: Optional Route Instruction.

R: A turn to the right.

S: Continue straight through an intersection.

See: Observe within 150 feet at an INT.

Signal: An INT with at least one multicolored electric traffic control device.

Stop: An eight sided red & white sign which controls your progress on the route.

T: An intersection where two roadways meet to form the capital letter T, approached up the stem.

Turn: A change in your direction of travel of approximately 90 degrees at an intersection.

U: A 180 degree change in your direction of travel.

ROUTE – All roadways used will be paved and public. Continue as straight as possible unless instructed otherwise. We have been informed some rallyeists have been speeding and improperly using a spotlight, so you are to assume that The Rallye Club turkey is going to drive directly in front of your car all night. To help you remember this, assume that the rallyemaster has put a sign on your dash board that reads, "Watch out for Winchester The Rallye Club turkey; he is just in front of you in a Sunbeam Alpine". Because we are in Wonderland, never drive on or past a Shamrock as it is bad luck and will lower your score!

CPS (Checkpoints) – To enter a CP pull behind the stopped car (identified by the usual '•' sign) and give your scoresheet to the first available worker. They may or may not give you an instruction, so make sure you say "I'm a turkey too!" to get one. There is not a valid CP at the start.

SIGNS – Use only governmental or rallyemaster erected signs for instructions, but you may use any other type of signs to answer Q's. You will never have to look behind you to see any sign. Except for an occasional (humorous?) remark, all information in parentheses is for helping you along the route and there are no gimmicks on any information contained in parentheses. There are no gimmicks based on spacing or capitalization. Consider that defined terms do not appear on signs. The words road, drive, way, and their abbreviations and block, numbers and arrows do not exist on signs. When quotation marks are used in an RI (or RI part), the entire quoted text must be present on a valid sign to execute that RI (or RI part). Do not split words. Do not consider the surface of the road or papers given to you by rallye personnel to be signs.

ORDER OF PRECEDENCE – If two or more instructions of different precedence can be executed at the same time and place do the one of higher precedence first.

1. The Law is the highest in the order of precedence, of course!
2. The Rallyemasters – we are the next best thing to the law.
3. **SI** (Special Instructions) – There are never any gimmicks on SIs! SIs found on the RI pages come into effect as indicated by the SI. SIs found elsewhere are in effect when received.
4. **GI** (General Instructions) – These are the playing rules for the rallye and are in effect when received.
5. **TURKEYS** - These are instructions that you are given at CPs tonight. They come into effect when received and are in effect until deleted.
6. **NOTES** - These are the instructions labeled Note found on your RI pages. Each note comes into effect when you have completed the RI that immediately precedes it on the page, and is to be complied with whenever possible and until the NOTE is deleted.
7. **RIS** (Route Instructions) - RIs are the numbered instructions found the RI pages. RIs come into effect in ascending numerical order. When an RI contains the word ORI (Optional Route Instruction) it is to be executed by completing which ever part can be validly executed first, and then canceling the remaining part(s).
8. Go as straight as possible
9. U

QUESTIONS - Questions are found on your RI pages and are labeled by **Q**. Questions are not instructions, but are scoring devices. Look for the answer to each Question only following the execution of the RI that most immediately precedes it on that RI page and until you complete the RI that succeeds it. Neatly print the answer for each Question in the correspondingly numbered space on your scoresheet. If a Question is otherwise unanswerable, then print "I'm late, I'm late" for that Question. If an answer for a Question is a number greater than 10 then consider that the only answer to that Question to be "Gobble, Gobble".

MISCELLANEOUS - The finish is at The Garrett 1777 S Bascom Ave. in Campbell (408) 559-7930. The finish will open at 10:00 PM and will close at 11:00 PM. If you wish to protest an answer please do so by writing what you think is the correct answer to the Question and your reason why. Make sure you include you car number, class, and the Question in dispute.

QUESTION #1 20 POINTS - FULL CREDIT - PACHECO/FRESNO
10 POINTS - 1/2 CREDIT - ALPINE/FRESNO

The generals stated under the section labeled 'route' that the rallymaster put a sign on your dash that contained the word "Alpine" and that was a valid sign (signs were either governmental or rallymaster erected). Thus you could turn early at Pacheco St. instead of waiting until you reached the real Alpine.

QUESTION #2 20 POINTS - FULL CREDIT - I'M LATE, I'M LATE
10 POINTS - 1/2 CREDIT - BLACK OR GRAY

Look at the definition of what a signal was and you will see that a signal is an INT with at least one electrically operated traffic control device. So you could not answer the Question since you never found a valid INT because at El Camino the INT was not valid because there were THREE posted streets there, Kiely, El Camino, and Bowers. So, if your answer is "I'm late I'm late" you get +20, if you were semi smart you put the actual color of the surface of the road (either black or gray) for 1/2 credit.

QUESTION #3 20 POINTS - FULL CREDIT - BARKLEY & LARSON
10 POINTS - 1/2 CREDIT - WADE & BARKLEY

The Generals said "...never drive on or past a Shamrock as it is bad luck and you will lower your score". When you approached Shamrock you were looking for someplace to execute the second part of RI # 7 "then R first OPP". Since you could not drive on Shamrock you made a U turn as if it was a dead end. You then did your R first Opp at Wade and started counting INTs to answer the question "What are the roadway names at the third DIFFERENT INT you come to?" Well you went to the T intersection of Wade and Barkley and went R at T as per NOTE A and found Shamrock again and made another U, since you could not drive on Shamrock and came back counting INTs. But, you were looking for Different INTs so you could not count Wade and Barkley as your third INT and instead went to Barkley & Larson for the answer to the Question. (You did well if you got full credit on this one!). The 1/2 credit answer is if you got everything, but forgot to count your third different INT.

QUESTION #4: 20 POINTS - FULL CREDIT - MONROE & ROOSEVELT
10 POINTS - 1/2 CREDIT - HOOVER & COOLIDGE
10 POINTS - 1/2 CREDIT - ONLY MONROE OR ROOSEVELT
5 POINTS - 1/4 CREDIT - ONLY HOOVER OR COOLIDGE

When " " are used it refers to a sign, when used with 'on' as in the first part of RI 9 it required you to turn upon the sign. So you had a flawed RI part which could never be done, (unless you actually turned on the sign, in which case I disclaim all responsibility for the damage to your car) so you should have executed the other RI part at Monroe. Then we hope you recalled what you should have learned in grade school. (And no, Gallup hasn't actually been president, though he might's well be, sometimes...)

QUESTION #5 20 POINTS - FULL CREDIT - GRAHAM & FATJO
10 POINTS - 1/2 CREDIT - THOMPSON & GRAHAM

The answer to this Q was achieved by turning early for RI #12 because the definition of OPP was "An opportunity to turn" so you could count OPPs in either direction and by counting Royal drive as an OPP you turned early at Warburton (did you notice that there was a "NOT A THROUGH" sign that was inaccurate?)

QUESTION #6 20 POINTS - FULL CREDIT - I'M LATE, I'M LATE
10 POINTS - 1/2 CREDIT - RED, GREEN, & WHITE

Look in your Generals at the paragraph about signs and you will find that numbers did not exist on signs so the sign read "Eleven" not "7 - Eleven" and hence the Question was not answerable.

QUESTION #7 20 POINTS - FULL CREDIT - 1 (DENISE)
15 POINTS - 3/4 CREDIT - 4 (ALICE, DENISE, DIANNE, AND LAUREL)
10 POINTS - 1/2 CREDIT - 3 (DENISE, DIANNE, AND LAUREL)

Maybe you patted yourself on your back about catching the above gimmick about numbers not existing on signs. Well did you also notice that "Block" did not exist so when you were looking for an INT to execute RI #16 you found an unnamed street (Block and Drive did not exist on signs) so it did not qualify as an INT so straight to Alice to try to execute RI #16. Except that for full credit, you turned for Alice because of the statement in the Generals to "turn right on Alice" and turned right on Denise for RI #16. And then you did RI #17 at Block, which is OK because turns don't have to be at INTs. You get 3/4 for catching Block but missing Alice.

QUESTION #8 20 POINTS - FULL CREDIT - NO
10 POINTS - 1/2 CREDIT - YES or I'M LATE, I'M LATE

To "see" something you must be at an INT, and the intersection where "Sunlite" occurred was not an INT because there were three posted street names with Homestead, Sunlite, and Enright, as well as Homestead, Sunset, and Blossom.

QUESTION #9 20 POINTS - FULL CREDIT - ZERO
10 POINTS - 1/2 CREDIT - 3 OR 4

Did you drive over any ducks?. That's what you had to do to encounter any! If you insist that you did, you must show us the road kill for credit.

QUESTION #10 20 POINTS - FULL CREDIT - Gobble, Gobble
10 POINTS - 1/2 CREDIT - 25

The paragraph in the GIs about answering Q's stated that if the answer to a Q is a number and is greater than 10 then you were you record "Gobble, Gobble" as the answer.

QUESTION #11: 20 POINTS - FULL CREDIT - RITA & JUANITA
15 POINTS - 3/4 CREDIT - PAULA & TOWN COUNTRY
10 POINTS - 1/2 CREDIT - PAULA & TOWN AND COUNTRY

You execute the RI part "R at Country Town" early at the premarker down Juanita. No, there's nothing that requires the words be in the same order. If you did not catch the above, you still had one more gimmick to catch for a few redemption points if you notice that at the first INT on Town & Country the sign read "Town Country" with no AND or & . If you found that you got 5 more points than the others. By the way there are five T & C street signs and none are the same.

QUESTION #12 20 POINTS - FULL CREDIT - GENEVIEVE & WILLIAMS

10 POINTS - 1/2 CREDIT - NEAL & DANIEL

10 POINTS - 1/2 CREDIT - NEAL & GENEVIEVE

In the Generals in the paragraph about signs it stated that defined terms did not exist on signs. When you got to ORI Ave. you again found an invalid INT so straight and execute your RI at Neal. You then did 'NOTE C - R on Genevieve' and answered your Q at Genevieve and Williams. You get 1/2 credit if you forgot to do NOTE C. You also get 1/2 credit if you did not get the ORI gimmick but remembered the NOTE.

CHECKPOINT # 1 = 70 POINTS

This was your first chance to go into the Checkpoint.

CHECKPOINT # 2 = 10 POINTS

If you said "I'm a turkey too!" you got some extra points!

CHECKPOINT # 3 = 20 POINTS (Second visit to the checkpoint!)

You received turkeys at the checkpoint that said L first OPP. But, it also stated that the Rallye club turkey played a trick on you causing you to turn right instead of left. So off you went going R many times back into the Checkpoint.

CHECKPOINT # 4 = 10 POINTS (Third visit to the checkpoint!!)

You received another turkey instruction that told you that the Rallyemaster fixed the trick that the Rallye club turkey played on you. Well that's fine, but, you still had a turkey telling you that you were to turn L first OPP so many lefts back around and returning to the Checkpoint.

CHECKPOINT # 5 = 10 POINTS (Did they gobble?)

You were asked what the age of the driver was. If you said "Gobble, Gobble," then you got 10 points.

QUESTION #13 20 POINTS - FULL CREDIT - 5

10 POINTS - 1/2 CREDIT - 3 or 4

5 POINTS - 1/4 CREDIT - 2

During the circling of the checkpoint you were making a lot of rights and if you went into the little dead end streets on Williams by the school you found 2 extra speed limit signs. See it pays if not to get lazy. You got full credit if you actually started counting when you completed RI 26 instead of waiting until after the checkpoint to start counting.

QUESTION #14 20 POINTS - FULL CREDIT - 5

10 POINTS - 1/2 CREDIT - 4 or 6

Mostly just checking to see if you can count that high. Not quite 10, though. Dirty, eh?

QUESTION #15 20 POINTS - FULL CREDIT - LIGHTHOUSE MORTGAGING

No real gimmick here, but there used to be a sign here allowing for one of the worst puns in rallye history.

QUESTION #16 20 POINTS - FULL CREDIT - BLANK

10 POINTS - 1/2 CREDIT - I'M LATE, I'M LATE

Q's can only be answered when the RI that precedes it on the RI page is executed. There was no RI preceding it on the page as it was the first item after the heading and therefor could not be brought in to effect, so the Q could not be answered.

QUESTION #17 10 POINTS - FULL CREDIT - NO

'Street' existed on signs, so at the first St. you found, you could turn which was Second 'st'. You did not see the Civic Center sign as it was on First St.

QUESTION #18 10 POINTS - FULL CREDIT - NO

Remember you still had the sign on your dash that had the word "Winchester" on it so you could execute the RI early at Third.

QUESTION #19 20 POINTS - FULL CREDIT - 1

10 POINTS - 1/2 CREDIT - 2

INTs are intersections where you may proceed in more than one direction excluding a U turn so there a forced turn (wanna be INT) that was invalid.

QUESTION #20 20 POINTS - FULL CREDIT - PAR COURSE (1ST)/BEAUTY

10 POINTS - 1/2 CREDIT - BLANK or I'M LATE, I'M LATE

This was the hardest sign to see on the route it was to the right before the park. If you realized that there was no following RI to end the Q, and therefor thought the Q was unanswerable you get 1/2 credit.

Perfect Score is 500 points
