

All First Timer scores exceed Beginner scores, though both were invited to the chalk talk at the start.

There was a bug in my rallye day scoring template. Scores shown did not match the critique (for RMs QQ and XX).

The + column below shows whether the score deserves 5 or 10 more points to match the Critique. No rankings change.

Thanks to Trevor Heathorn for providing me enough information after the rallye to find that scoring template bug!

Class	Place	Family # (Car #)	Score	Add to Score	Notes	Driver	Navigator	Passengers
Notes: W Won an Award								
A Award Picked up (those who won awards but have not yet picked them up are in boldface)								
P Score increased by a granted protest								
L Score diminished by late score sheet								
S Agreed to compete as Expert, rather than Senior class (so 2 nd Sr. award would not be wasted)								
T Won (or would have won) tie-breaker								
U Rallye unfinished (and score sheet not officially turned in)								
						# marks TRC members for championship purposes

The Amazing Rallye VIII Results

This page tells how many cars (overall and by class) got selected gimmick correct (at least once), out of how many cars. For example, X out of Y cars that finished had RI 1 correct, 0 of 2 First Timer cars, 2 of 3 Beginner cars.

- marks RMs correctly NOT recorded (because TI was valid or RM was not). Car count includes one car without official finish. Note which classes recorded YZ 87. This RM could be seen from Alberta and Sunnyvale-Saratoga.
